Simplifying insulin injections

Autopen®
Insulin delivery pens

More reason to smile

owenmumford.com
Every day, millions of people inject themselves with insulin using an injection pen. Autopen® has been designed to make this experience as easy as possible with a side-mounted release button.

**Compatible² with all major brands of pen needle.**

Autopen® has been designed to be compatible with all major brands of insulin pen needles including Unifine® Pentips® and Unifine® Pentips® Plus.

Simple, automatic delivery using a side-mounted release button.

Easy to use dose selector with audible clicks.

### Accessories included with Autopen®

Autopen® accessories create an even easier injection experience for people with limited hand movement or grip.

- **Release Button Extension**
  - Increases area to make it easy to push the release button.

- **Dose Selector Adaptor**
  - Soft grip and larger area to make dialling a dose easy.

### Pens to suit every user.
